

## Evidencia de carga de base de conocimientos a la nube

[illegible]

Agente ChatBot saludando

The image shows a VS Code editor window with a web browser open to the URL `http://127.0.0.1:7860/`. The browser displays the page title `..Santo Pegasus Soluciones | Agente ChatBot.` and a chat interface. The chatbot has responded to a "¡Hola!" message with a friendly greeting and a list of services it can assist with, including onboarding, API documentation, technical questions, front-end development, incident reporting, and microservices architecture. It also provides a quick example of how to use the service.

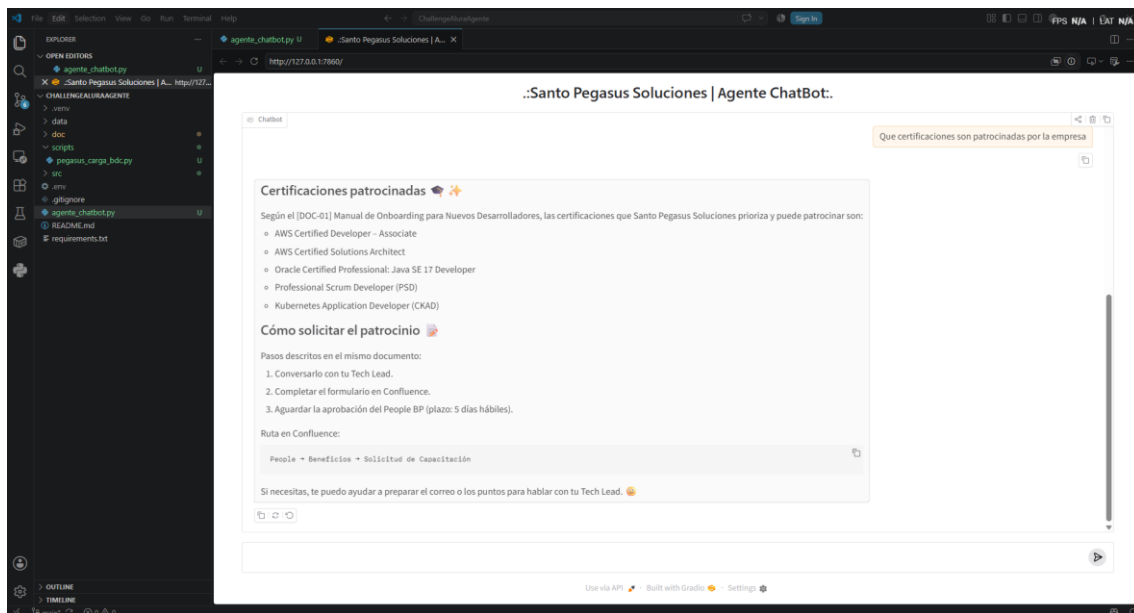

The VS Code interface shows the file explorer on the left with the following files:

- `agente_chatbot.py`
- `..Santo Pegasus Soluciones | A...`
- `CHALLENGEALURALAGENTE`
- `servu`
- `data`
- `doc`
- `scripts`
- `pegasus_carga_bot.py`
- `src`
- `env`
- `gigaphone`
- `agente_chatbot.py`
- `README.md`
- `requirements.txt`

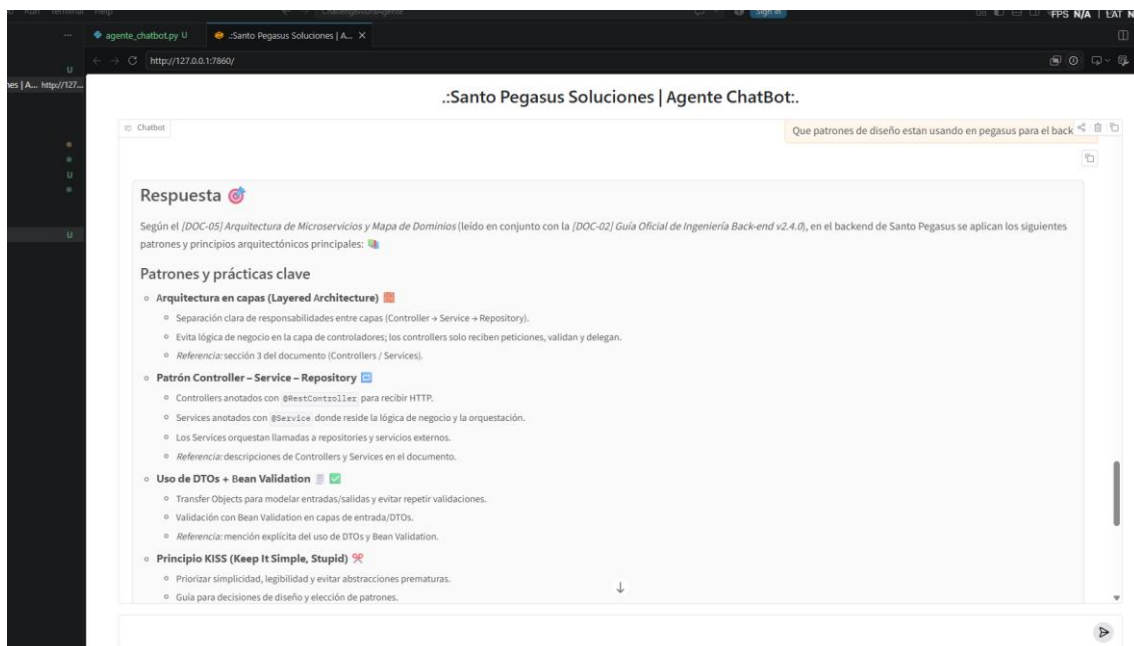

The terminal at the bottom shows the command prompt and the output of the application, including the URL `http://127.0.0.1:7860/` and the command to run the application:

```
PS E:\Cursos\VMF_Tech_Builder\ChallengeAuralAgente> Set-ExecutionPolicy RemoteSigned; & { cd E:\Cursos\VMF_Tech_Builder\ChallengeAuralAgente; .\Scripts\Activate.ps1 }
(.venv) PS E:\Cursos\VMF_Tech_Builder\ChallengeAuralAgente> py .\agente_chatbot.py
* Running on local URL: http://127.0.0.1:7860
* To create a public link, set "share=True" in "launch()".
```

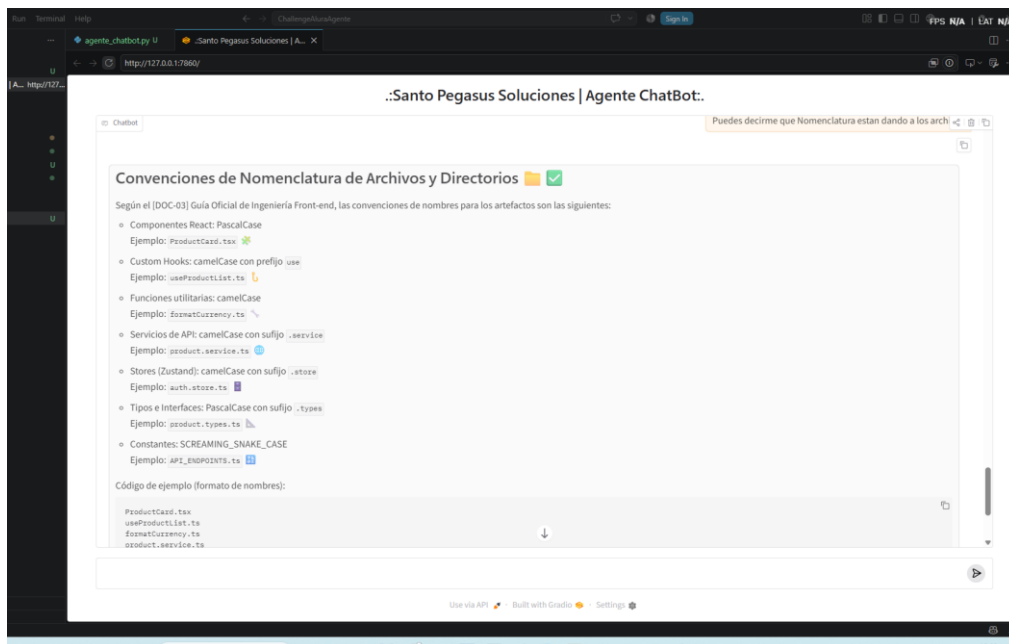

## Pregunta 1: Que certificaciones son patrocinadas por la empresa

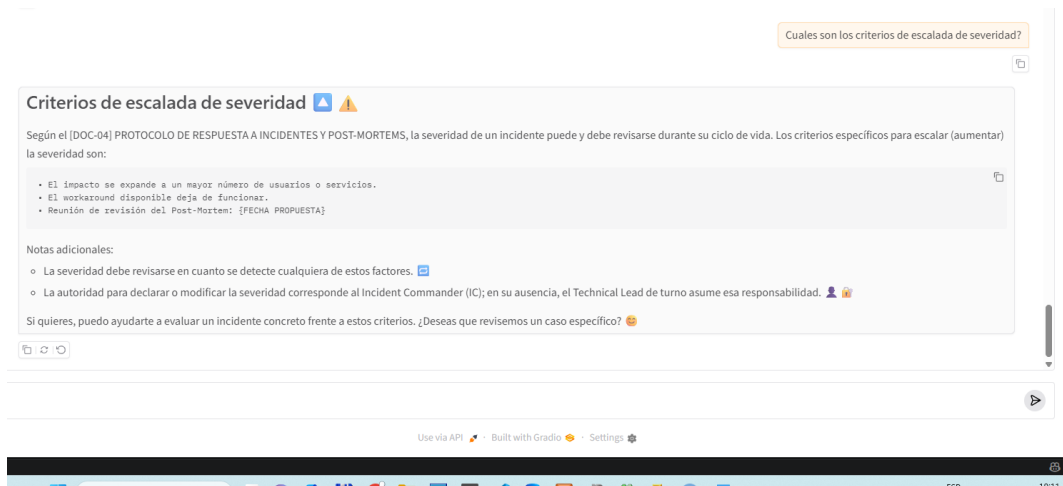

## Pregunta 2: Que patrones de diseño están usando en pegasus para el backend

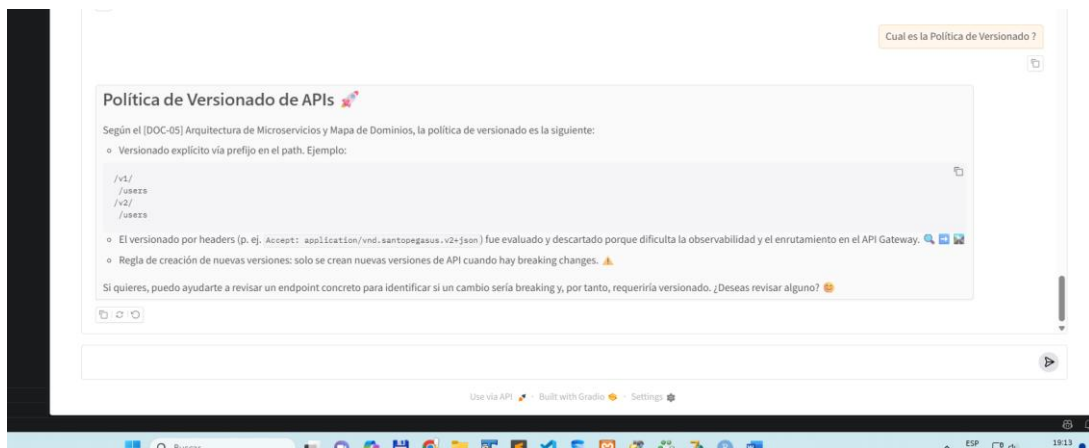

### Pregunta 3: Puedes decirme que Nomenclatura estan dando a los archivos

### Pregunta 4: Cuales son los criterios de escalada de severidad?

### Pregunta 5: Cual es la Política de Versionado ?

## 6. Pregunta fuera de contexto
